NOTE FOR: NIO/Economics

FROM: DD/ALA

25X1

SUBJECT: Central American Economic Development

1. I got your note Friday suggesting that we get together sometime Tuesday afternoon to discuss the issue of economic development in Central America. Unfortunately, I will be on the 25th--God willing. Because of that I thought I would pass along at least some ideas off the top of my head as I prepare to walk out the door. (C)

25X1

2. I guess I would recommend starting off in the first paragraph having the Director say that he shares the President's deep-felt-belief that one of the legacies of this Administration must be the advancement of peace, democracy and progress in Central America.

25X1

3. Hopefully you will find the above suggestions useful. I wish I could have provided more but the time simply wasn't available. (U)
